DETAILED ACTION

1. The amendment filed 2/14/06 has been entered.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-26 are rejected under 35 U.S.C. 102(b) as being anticipated by Kawano et al.

Kawano discloses a sheet processing device a sheet holding means buffer unit with a held sheet conveying portion (19); first sheet stacking means processing tray (22); second sheet stacking means sheet stacker (6); first sheet conveying means discharging rotary members (21A, 21B, 23B); second conveying means discharging assist member (28); control means (70); and image forming means (see col. 1, line 42).

Response to Arguments

4. Applicant's arguments filed 2/14/06 have been fully considered but they are not persuasive. The applicant states that Kawano does not disclose claim 1, structure in which the first sheet conveying means conveys the sheets held by the sheet holding means and the sheets stacked on the first sheet stacking means simultaneously under a state in which a downstream edge of the sheet stacked on the first sheet stacking means protrudes in a downstream side beyond a downstream edge of the sheets held by the sheet holding means by a predetermined amount to thereby discharge the sheets stacked on the first sheet stacking means to the second

sheet stacking means and to stack the sheets held by the sheet holding means onto the first sheet stacking means. In response, see Kawano Figure 10 and col. 8, lines 7-13 and line 47.

Conclusion

5. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
